In this article the final sentence in the 'Analysis approach' subsection was incorrectly given as:

The study did not meet the definition of human subjects research per the IRB of the authors' institution (**IRB #[insert non-anonymous number for publication]**); therefore there are no ethics considerations to disclose.

But should have been:

The study did not meet the definition of human subjects research per the IRB of the authors' institution (**IRB #FWA00000191**); therefore there are no ethics considerations to disclose.
